About Us

H.E. Poly Ltd. was founded in 2002. The head office is in Calgary, Alberta, Canada with a parts division located in Edmonton, Alberta, Canada.

H.E. Poly Ltd. has over 20 years experience in general construction, mining, machinery and maintenance. Combined we are a one stop shop for all your heavy equipment parts needs.

H.E. Poly Ltd was founded with the vision of providing customers with parts that meet or exceed OEM quality at a price less than OEM dealer list. We do this by using the parts we sell in our own components, so if they fit for us they will for you also. The knowledge the owner of H.E. Poly Ltd has gained both as a Caterpillar trained tech and marketing manager for Caterpillar and its largest dealer we know where to go and what to get that gives the customer the best product at the best price.

What makes H.E. Poly Ltd very different than it's competitors is we manufacture our main product line for Caterpillar graders. Our Brass is manufactured under our guidelines by a family run business that makes these items by hand so we know they are built correct and fit correctly at a price for less than OEM dealers. We also have other Caterpillar grader parts for the circle drives, circles and brakes.

Products

Brass Products

Our custom made brass products for all Caterpillar graders under our trade name H.E.P.

We manufacture the best quality wear strips from raw material. Most others use recycled brass for a lower price that results in lower quality. We offer the newest products for the Caterpillar M graders.
